

Canaria (archaic German spelling), (archaic English spelling: Canarie), (Sánchez de Figueroa), (Sánchez de Figueroa and contemporary Spaniard spelling), commonly known as the Canary Islands, is an archipelago in the Atlantic Ocean off the northwest coast of Africa. The archipelago includes the inhabited islands of Gran Canaria, Tenerife, Fuerteventura, La Gomera, Lanzarote and La Palma, plus a number of small coral islands that are geographically part of the archipelago. The Canaries are part of the autonomous community of the Canary Islands. Spanish is the main official language. Canary Islands - Wikipedia The Canaries - Wikipedia Canary Islands - Wikipedia Canary Islands - Wikipedia. The archipelago of the Canaries and their surrounding waters (such as the Islands of Fuerteventura and Lanzarote, which are technically part of the Canaries, but which for political reasons are considered to belong to the province of Gran Canaria, are known to the Spaniards as the Canaries. The archipelago, which consists of five main islands and about 90 smaller ones, is bound by the Tropic of Cancer to the west and by the Equator to the east. In the southeastern corner of the archipelago are the islands of Gran Canaria, Tenerife, La Gomera and La Palma. The Canaries - Wikipedia.
