English

Perfect circles at the start,
You curved your way into my heart.
Eating pellets, growing long,
While singing me a SoundCloud song.

Slither through, avoiding traps,
While making sure we make the gaps.
This is easy, this is fun,
Curvatron's for everyone!

Hard Mode now, getting faster,
Leading me into disaster.
Sinusoidal siren's song,
I now belong to Curvatron.. This game is exactly as advertised. It's simple, snake-like game. All moves are made in curves.

Simple observations aside, this game is one of the very few under 1\$ games i'd ever recomend. It's a fun time killer with a casual feel but with time or circumstance becomes quite difficult.

If you like retro games like snake- give it a try.
If you like to kill time between Queue on another game and need a finger warm-up- give it a try.
If you like to show off to your friends how good you are at clicking better than them in multiplayer- well give it a try. but i hope you are ready to loose friends.

I'd give it a try/10... you may like it.. I have never hated a game as much as I hate this.. This game is marketed as "Snake with a twist" - which is the most correct definition possibkle. Instead of moving vertically and horizontally, you are moving circular. This makes for an interesting game experience.

Also, the dev is a cool guy who listens to feedback and solves your issues, so that's a big plus. :). Buy this collection of sweet electronic music and get a frustrating minigame for FREE!

PROS:

- + Minimalistic art style is very charming and pleasing to look at
- + Beautiful soundtrack
- + Cheap price tag, that of a mobile game

CONS:

- Only one control, and it's still clunky and hard to work around
- The core mechanic just isn't fun, in my opinion; it feels far too difficult and annoying to control correctly

Verdict:

I feel somewhat bad saying I wouldn't recommend this, because I can tell the developers put a lot of work into this simple game. It feels good, it looks good, and it sounds good, but to me, it simply isn't fun in the slightest. I didn't play for long because after 15 minutes I already felt like I experienced everything that I needed to. Perhaps this just wasn't the right game for me. 4/10. WOW. Hard as balls but great music!

8/10. I only bought this game because of its name (in Czech (and Polak) the word 'curva' resembles of the word 'kurva' which is a swear word).

Originally I also thought I would be capable of getting all the achievements - because there is only few of them. Oh boy, I have never been so wrong in my entire life. Last few achievements proved themselves to be really hard to get.

Gameplay itself is pretty okay, the game runs smoothly and I have generally positive feelings about the game.. Sperm simulator. 10/10. Game makes you want to kill yourself by the second level. Great 3 dollars.
